NIKITA STETSKIY

Customer Success Engineer

PROFILE

I work as a Customer Success Engineer at HashiCorp, helping customers adopt our solutions and apply best practices in their projects, primarily with Vault and Terraform.

Before that, I worked in IBM Public Cloud, designing architectures and automating deployments.

I've always been interested in understanding how the different layers fit together, from networking and infrastructure to development, so I can approach problems with a clear view of the whole solution.

WORK EXPERIENCE

Customer Success Engineer

HashiCorp - Madrid Aug 2025 - present

Drive adoption of HashiCorp solutions across EMEA, with a focus on DACH.

- Advise on architecture, implementation and operational best practices, primarily around Vault and Terraform.
- Deliver technical demos and practical walkthroughs tailored to customer use cases and operational challenges.
- Led the resolution of a Vault and Azure integration issue blocking production adoption, working with Support and Engineering.

Cloud Architect / Technical Specialist

IBM - Madrid Jul 2023 - Sep 2025

- Developed RFPs and participated in public contracts, leading VMware datacenter migration projects.
- Led PoC and MVP deployments with Terraform, worked directly with clients, and prepared accounts for production.
- Contributed to internal projects, including websites, and optimized PoC accounts, cutting costs by over 50%.

Technical Sales Specialist Intern

IBM, BlueCamp - Madrid Mar - Jun 2023

DevOps & Cloud Engineer Intern

Ericsson - Málaga Jan - Mar 2023

Web & Systems Intern

University of Granada Sep 2021 - Feb 2022

EDUCATION

Bachelor's Degree in Computer Engineering

University of Granada, Spain 2017 - 2022

IT specialization, with experience planning and delivering IT projects. Final project grade: 9.7/10.

Semester exchange programme

University of Seoul, South Korea 2022

Developed multicultural communication skills and cultural awareness by studying abroad and engaging with people from diverse backgrounds.
